Co-hosted with:

The Institute of International Education (IIE)

and

The Council for International Exchange of Scholars (CIES)

Our Opening Reception last September attracted approximately 200 people—American Fulbright Alumni and Overseas Fulbrighters—and we are expecting this Special Winter Reception in the heart of the Boston professional community to be comparably well-attended. Plan to drop by after work or class for drinks and hors d’oeuvres, stimulating conversation, and to reconnect with this vital network of internationally-minded Americans and their overseas guests. Spouses and accompanying guests are most welcome. An invitation from IIE/CIES will follow.

The Massachusetts Fulbright Association represents the largest concentration of Fulbrighters in the world. Be sure to visit our website at www.massfulbright.org
